Product

Product description/Product definition

With the extension module 90 43, the standalone remote reader 91 15 becomes a reader with convenient wireless function. This way, you can program doors from your desk and benefit from the advantages of a wireless access system. It can be used for doors where you wish to change access rights wirelessly. For instance, in a system in which doors have been equipped with battery operated standalone components and have the wireless function. Here you can integrate the entrance door reader into the same network and operate all doors conveniently with the click of a mouse. The extension module connects directly to the remote reader 91 15 without additional wiring effort.

For the placing on the market in the European Union/European Free Trade Association (EU/EFTA) (with the exception of Switzerland) the following legal provisions apply:

- *Radio Equipment Directive (RED)*
- *Restriction of Hazardous Substances (RoHS)*
- *EN 50581:2012*

The CE-marking takes into account the proof of conformity with the respective harmonized standards based on the legal provisions above. For the application and use the respective national provisions apply.

Application

Wireless access control

It provides a wireless access point for almost any door:

- Standalone systems: as a CardLink update point
- External doors and gates
- Automatic doors
- Parking barriers
- Entrance areas
- Motor locks

Technical Data

The extension module 90 43 has the following technical properties:

Name	Value	Unit
Operating Temperature	0 - 50	°C
Operating Humidity	5 - 85	%
Width Dimension	70	mm
Height Dimension	87	mm
Depth Dimension	45	mm
Weight (without packaging)	0,09	kg
Weight (with packaging)	0,145	kg
Power consumption "on mode"	5	W
Power consumption "idle mode"	2	W

Interface

- proprietary in-line bus to host device

Peripherals Interface

- Radio Technology: IEEE 802.15.4
- Frequency band: 2400 to 2485.5 MHz (16 channels)

Power supply

- via proprietary bus from connected host device

Installation

- Top hat rails: TH35/(7.5/15)
- Class of protection: IP20

The product is not harmonised in accordance with the Construction Product Regulations (CPR) but in accordance with other provisions for harmonisation of the EU. Compliance with the European Union Directive and technical specifications:

- EN 301489-1 V2.2.0 Draft
- EN 301489-17 V3.2.1 Draft
- EN 300328 V2.1.1
- EN 62311:2008

- EN 62368-1:2014-08

The product is subject to CE marking according to the relevant harmonization legislation.

Base materials/Ancillary materials

The major material compositions of the product are listed below:

Name	Value	Unit
Paper	45	%
Plastics	29	%
Electronics	25	%
Steel	<1	%

The product includes partial articles which contain substances listed in the Candidate List of *REACH* Regulation 1907/2006/EC (date: 08.07.2021) exceeding 0.1 percentage by mass: yes

- Lead (Pb): 7439-92-1 (CAS-No.) is included in some of the alloys used. The concentration of lead in each individual alloy does not exceed 4.0% (by mass).

The Candidate List can be found on the ECHA website address: <https://echa.europa.eu/de/home>.

Reference service life

The reference service life of the dormakaba extension module 90 43 is estimated to be 12 years. This number is based on the support and service life and is not an estimated lifetime.

LCA: Calculation rules

Declared Unit

The declared unit is 1 piece of the product: Extension module 90 43.

Declared unit

Name	Value	Unit
Declared unit	1	pce.
Conversion factor to 1 kg (kg per declared unit)	6.89	-
Product weight including packaging	0,145	kg

System boundary

The type of EPD is: cradle to gate with options, modules C1–C4, and module D (A1–A3 + C + D and additional modules: A4 + A5 + B6)

Production - Module A1-A3

The product stage includes:

- A1, raw material extraction, processing and mechanical treatments, processing of secondary material input (e.g. recycling processes),
- A2, transport to the manufacturer,
- A3, manufacturing and assembly

including provision of all materials, products and energy, as well as waste processing up to the end-of waste state.

Construction stage - Modules A4-A5

The construction process stage includes:

- A4, transport to the building site;
- A5, installation into the building;

including provision of all materials, products and energy, as well as waste processing up to the end-of-waste state or disposal of final residues during the construction process stage.

Use stage - Module B6

The use stage related to the operation of the building includes:

- B6, operational energy use

End-of-life stage– Modules C1-C4 and D

The end-of-life stage includes:

- C1, de-construction, demolition;
- C2, transport to waste processing;
- C3, waste processing for reuse, recovery and/or recycling;
- C4, disposal;

including provision and all transport, provision of all materials, products and related energy and water use.

Module D (Benefits and loads beyond the system boundary) includes:
— D, recycling potentials, expressed as net impacts and benefits.

were created according to *EN 15804* and the building context, respectively the product-specific characteristics of performance, are taken into account.

Comparability

Basically, a comparison or an evaluation of EPD data is only possible if all the data sets to be compared

Background database: *GaBi*, SP40.

LCA: Scenarios and additional technical information

Characteristic product properties Information on biogenic Carbon

relevant scenario information

Collection rate is 100%.

Information on describing the biogenic Carbon Content at factory gate

Name	Value	Unit
Biogenic Carbon Content in product	0.01	kg C
Biogenic Carbon Content in accompanying packaging	0.02	kg C

The following technical scenario information is required for the declared modules.

Transport to the building site (A4)

Name	Value	Unit
Litres of fuel per 1 kg	0.00276	l/100km
Transport distance	750	km
Capacity utilisation (including empty runs)	51	%

Installation into the building (A5)

Name	Value	Unit
Waste Packaging (paper)	0,05	kg

Reference service life

Name	Value	Unit
Life Span according to the manufacturer	12	a

Operational energy use (B6) and Operational water use (B7)

The use stage is declared for 12 years.

Name	Value	Unit
Energy consumption for 1 year	19,75	kWh
on mode per day	2	h
idle mode per day	22	h
on mode power	5	W
idle mode power	2	W
Days per year in use	365	days

End of life (C1-C4)

C1: The product dismantling from the building is done manually without environmental burden.

Name	Value	Unit
Recycling	0.04	kg
Energy recovery	0.04	kg
Landfilling	0.01	kg
Transportation to Waste Processing Site	50	km

Region for end of life: Global

Reuse, recovery and/or recycling potentials (D),

LCA: Results

Disclaimer:

EP-freshwater: This indicator has been calculated as "kg P eq" as required in the characterization model (EUTREND model, Struijs et al., 2009b, as implemented in ReCiPe; <http://eplca.jrc.ec.europa.eu/LCDN/developerEF.xhtml>).

DESCRIPTION OF THE SYSTEM BOUNDARY (X = INCLUDED IN LCA; ND = MODULE OR INDICATOR NOT DECLARED; MNR = MODULE NOT RELEVANT)

Disclaimer 1 – for the indicator IRP

This impact category deals mainly with the eventual impact of low dose ionizing radiation on human health of the nuclear fuel cycle. It does not consider effects due to possible nuclear accidents, occupational exposure nor due to radioactive waste disposal in underground facilities. Potential ionizing radiation from the soil, from radon and from some construction materials is also not measured by this indicator.

Disclaimer 2 – for the indicators ADPE, ADPF, WDP, ETP-fw, HTP-c, HTP-nc, SQP

The results of this environmental impact indicator shall be used with care as the uncertainties on these results are high or as there is limited experience with the indicator.
